🚢 Understanding the 3-1-1 Rule

The **3-1-1 rule** originally comes from airline security regulations, particularly in the United States. It refers to how passengers must carry liquids in their carry-on bags:

- **3** = Containers must be **3.4 ounces (100 ml) or less**
- **1** = All containers must fit into **1 quart-sized clear plastic bag**
- **1** = Each passenger is allowed **1 bag only**

While this rule is strictly enforced at airports, it **does not fully apply to Royal Caribbean Cruises in the same way**. However, it still plays an important role if your Royal Caribbean Cruises involves **air travel before boarding**.

If you're unsure about your specific Royal Caribbean Cruises policy, call 📞+1-866-254-7549(US/CANADA) or 📞 **+44 (289) 708-0062 (UK)** for clarification.

✈️ Does the 3-1-1 Rule Apply to Royal Caribbean Cruises

✔️ Yes—If You're Flying to Your Royal Caribbean Cruises Port

If your Royal Caribbean Cruises vacation starts with a flight, you **must follow the 3-1-1 rule during your flight**. This means packing your liquids correctly in your carry-on luggage.

For example:

- Shampoo, lotion, and perfume must be under 3.4 oz
- All liquids must fit into one clear bag

After you arrive at your Royal Caribbean Cruises port, these airline restrictions no longer apply in the same way.

✔️ No—Once You Board the Royal Caribbean Cruises Ship

Celebrity Cruises lines generally have **different, more relaxed rules** compared to airlines.

- You can pack **larger liquid containers** in your checked luggage
- Toiletries like shampoo, sunscreen, and body wash are usually allowed
- Some restrictions apply to alcohol and certain beverages

🍷 Alcohol Rules vs. 3-1-1 Rule

One area where Royal Caribbean Cruises lines are strict is alcohol.

- Hard liquor is often restricted
- Extra alcohol may be confiscated at boarding

This has nothing to do with the 3-1-1 rule, but it's important to know.

🧠 Why the 3-1-1 Rule Still Matters for Royal Caribbean Cruises Travelers

Even though Royal Caribbean Cruises don't enforce it onboard, the rule still matters because:

1. **Most travelers fly to their Royal Caribbean Cruises port**
2. Airport security checks happen before your Royal Caribbean Cruises begins
3. Violating the rule can delay your trip

To avoid stress, always follow the 3-1-1 rule during flights and then repack if needed once onboard.

The "3-1-1" rule is not a Royal Caribbean cruise policy, but rather the standard TSA Carry-On Guidelines that apply if you are flying to your departure port.

It means that any liquids, aerosols, gels, creams, and pastes in your carry-on luggage must be packed as follows: +1-866-254-7549(US/CANADA)

- **3.4 ounces (100 ml)** or less per container
- **1 quart-sized**, clear, resealable plastic bag holding all your items
- **1 bag** limit per passenger +1-866-254-7549(US/CANADA)

How it applies to your cruise:

- **On the Ship:** Royal Caribbean does not enforce this rule onboard their ships. You are welcome to bring full-sized toiletries (like large bottles of shampoo or sunscreen) in both your carry-on and checked luggage when boarding the ship.
- **Traveling:** Always follow the 3-1-1 rule for your flight to the port. If you have full-sized liquids you want on your vacation, simply pack them in your checked luggage for the flight. +1-866-254-7549(US/CANADA)
